CASE REPORTS

MANUSCRIPTS UNDER REVISION:

Zumstein MA, Schaer M, Hess R, Willert HG: Rapid progressive Osteolysis of Total Hip Arthroplasty with Metal/Metal Articulation with signs of Delayed Type Hypersensitivity (DTH), Case report, Arch Orthop Trauma Surg.

PAPERS IN PREPARATION:

POSTER PRESENTATIONS:

July 2005  
Zumstein MA, Jost B, Pfirrmann CWA, Gerber C:  
Outcome after Structural Failure of Rotator Cuff Repairs—Long Term Results  
7th EFFORT Congress, Lisbon

September 2006  
Frizzled- and Wnt-mRNA expression in fatty infiltration of rotator cuff muscles may contribute to adipogenesis after tendon tear  
20th Congress of the European Society for Surgery of the Shoulder and Elbow, Athens, Greece  
(Swiss National Science Foundation grant No 320-113424/1)

Molecular mechanisms of atrophy due to rotator cuff tear  
20th Congress of the European Society for Surgery of the Shoulder and Elbow, Athens, Greece  
(Swiss National Science Foundation grant No 320-113424/1)

The Correlation of CEBP and PPAR RNA Expression Levels with Fatty Degeneration of the Rotator Cuff Muscles after Tendon Rupture  
20th Congress of the European Society for Surgery of the Shoulder and Elbow, Athens, Greece  
(Swiss National Science Foundation grant No 320-113424/1)

The role of skeletal muscle specific markers in degenerative muscular changes after rotator cuff tendon rupture  
20th Congress of the European Society for Surgery of the Shoulder and Elbow, Athens, Greece  
(Swiss National Science Foundation grant No 320-113424/1)

September 2006  
Frizzled- and Wnt-mRNA expression in fatty infiltration of rotator cuff muscles may contribute to adipogenesis after tendon tear  
Annual Meeting of the Swiss Society of Orthopedic Surgeons, Lucerne Switzerland  
(Swiss National Science Foundation grant No 320-113424/1)
Molecular mechanisms of atrophy due to rotator cuff tear
Annual Meeting of the Swiss Society of Orthopedic Surgeons, Lucerne Switzerland
(Swiss National Science Foundation grant No 320-113424/1)

The role of skeletal muscle specific markers in degenerative muscular changes after rotator cuff tendon rupture
Annual Meeting of the Swiss Society of Orthopedic Surgeons, Lucerne Switzerland
(Swiss National Science Foundation grant No 320-113424/1)

Mai 2007
Sussmann PS, Zumstein MA, Hahn F, Dora C
The risk of vascular injury to the femoral head when using the posterolateral arthroscopy portal: cadaveric investigation
8th EFORT Congress, Florence, Italy

Mai 2008
Zumstein MA, Bastian JD, Tomagra S, Bosshard C, Schuster AJ
A new technique in anterior cruciate ligament reconstruction to adjust the tension of the graft tendon to that of the contralateral anterior cruciate ligament.
13th ESSKA Congress, Porto, Portugal

September 2008
Zumstein MA, Wüst DM, Jost B, Pfirrmann CWA, Hempel J, Gerber C
Effect of Static Posterior Humeral Head Subluxation on the Results of Arthroscopic Stabilized Posterior Shoulder Instabilities?
21st Congress of the European Society for Surgery of the Shoulder and Elbow, Brugge, Belgium

Bastian JD, Zumstein MA, Wyss TF, Nötzli HP
Neuartiges Platten-Drahtcerclagensystem unter Verwendung von „Plattenverankerungsoesen“ zur Retention Periprothetischer Femurfrakturen
Annual Meeting of the Swiss Society of Orthopedic Surgeons, Basel Switzerland

Zumstein MA, Vlachopoulos L, Wyss TF, Nötzli HP
Anatomic Refixation of the Trochanteric Fragment following Stepwise Osteotomy in Revision Total Hip Arthroplasty influence the Union Time
Annual Meeting of the Swiss Society of Orthopedic Surgeons, Basel Switzerland
Zumstein MA, Bastian JD, Tomagra S, Bosshard C, Schuster AJ
A new technique in anterior cruciate ligament reconstruction to
adjust the tension of the graft tendon to that of the contralateral
anterior cruciate ligament.
Annual Meeting of the Swiss Society of Orthopedic Surgeons,
Basel Switzerland

September 2009 Zumstein MA, Hoppe S, Nyffeler RW, Boileau, Alini M
SECEC Research Grant 2008: Can a natural insertion of the Rotator
Cuff be induced by Tenocytes of Chronic Chronic Tears? The role of
Platelet Released Growth Factors on Cell-Proliferation and ECM
Synthesis in vitro.
22nd Congress of the European Society for Surgery of the Shoulder
and Elbow, Madrid, Spain

November 2009 Zumstein MA, Hoppe S, Nyffeler RW, Boileau, Alini M
SECEC Research Grant 2008: Can a natural insertion of the Rotator
Cuff be induced by Tenocytes of Chronic Chronic Tears? The role of
Platelet Released Growth Factors on Cell-Proliferation and ECM
Synthesis in vitro.
Day of Clinical Research, University of Bern, Switzerland

Moser M, Mottini M, Zumstein MA, Ott S, Sadowski-Cron C,
Radanov BP, Zimmermann H, Exadaktylos A
Long Term Outcome in Patients with Mild Traumatic Brain Injury
(MTBI): A Prospective Observational Study
Day of Clinical Research, University of Bern, Switzerland

March 2010 Zumstein MA, Bugnas B, Brassart N, Boileau P
Does the technique in arthroscopic double-row rotator cuff repair
influence the result? American Academy of Orthopaedic Surgeons
2010 Annual Meeting – March 9 -13 – New Orleans, LA

June 2010 Zumstein MA, Schober MM, Rumian A, Lesbats V, Boileau P
Biologic Augmentation using Leucocyte and Platelet Rich Fibrin (L-
PRF) in Rotator Cuff Repair.
25. Jahreskongress der Gesellschaft für fur Orthopädisch-
Traumatologische Sportmedizin, München.

June 2011 Hoppe S, Frauchiger L, Mainzer JD, Ballmer PM, Hess R, Zumstein
MA
“More accurate Component Alignment in image-based and image-
free Total Knee Replacement does not have a clinical benefit AT
mid-term follow up”
